JAMES B. JOHNSON, JR.
DIRECTOR

TO: The Honorable Carroll A. Campbell, Jr., Governor of South Carolina, and to The Honorable Members of The General Assembly of South Carolina

On behalf of the South Carolina State Library Board it is with pride that I submit the annual report of the South Carolina State Library for fiscal year 1989-1990. This was a year of accomplishment and transition. Betty E. Callaham retired after eleven years as Director. During her tenure State Library programs grew at an unprecedented rate. The State Library Board selected James B. Johnson, Jr., Deputy Director for Library Development, to succeed her as Director.

The State Library was selected by Governor Carroll A. Campbell, Jr. to conduct statewide activities leading up to a Second White House Conference on Libraries and Information Services in July 1991. A twenty nine member committee was appointed to advise the State Library and assist in planning activities including a series of local meetings which will culminate in a statewide teleconference which will be held October 30, 1990. Discussions at these meetings will help the State Library and other libraries in the state establish objectives to take us into the Twenty-first Century.

In 1969 the State Library moved into a building designed for twenty years growth. Twenty one years later plans were being made to renovate and expand this facility. During the year our staff worked with a library building consultant to develop a building program. In May 1990 a contract was signed wih an architectural firm to develop plans.

Hurricane Hugo had a devastating effect on South Carolina, but fortunately South Carolina's libraries with few exceptions received little damage. Three Charleston County Library branches received substantial damage. A State Library disaster recovery team was able to provide technical assistance.

The State Library experienced another year of significant growth. All indices of use increased, especially service to state government. If libraries and state agencies had to purchase the materials they borrowed it would have cost them an estimated $1.6 million, more than six times the State Library's book budget.

The State Library Board recognizes the tremendous contribution our staff makes to providing quality, efficient service. As we enter a new era, we look for continued staff commitment to making the State Library the best it can be.

Respectfully submitted,

George H. Seago, Jr.
Chairman

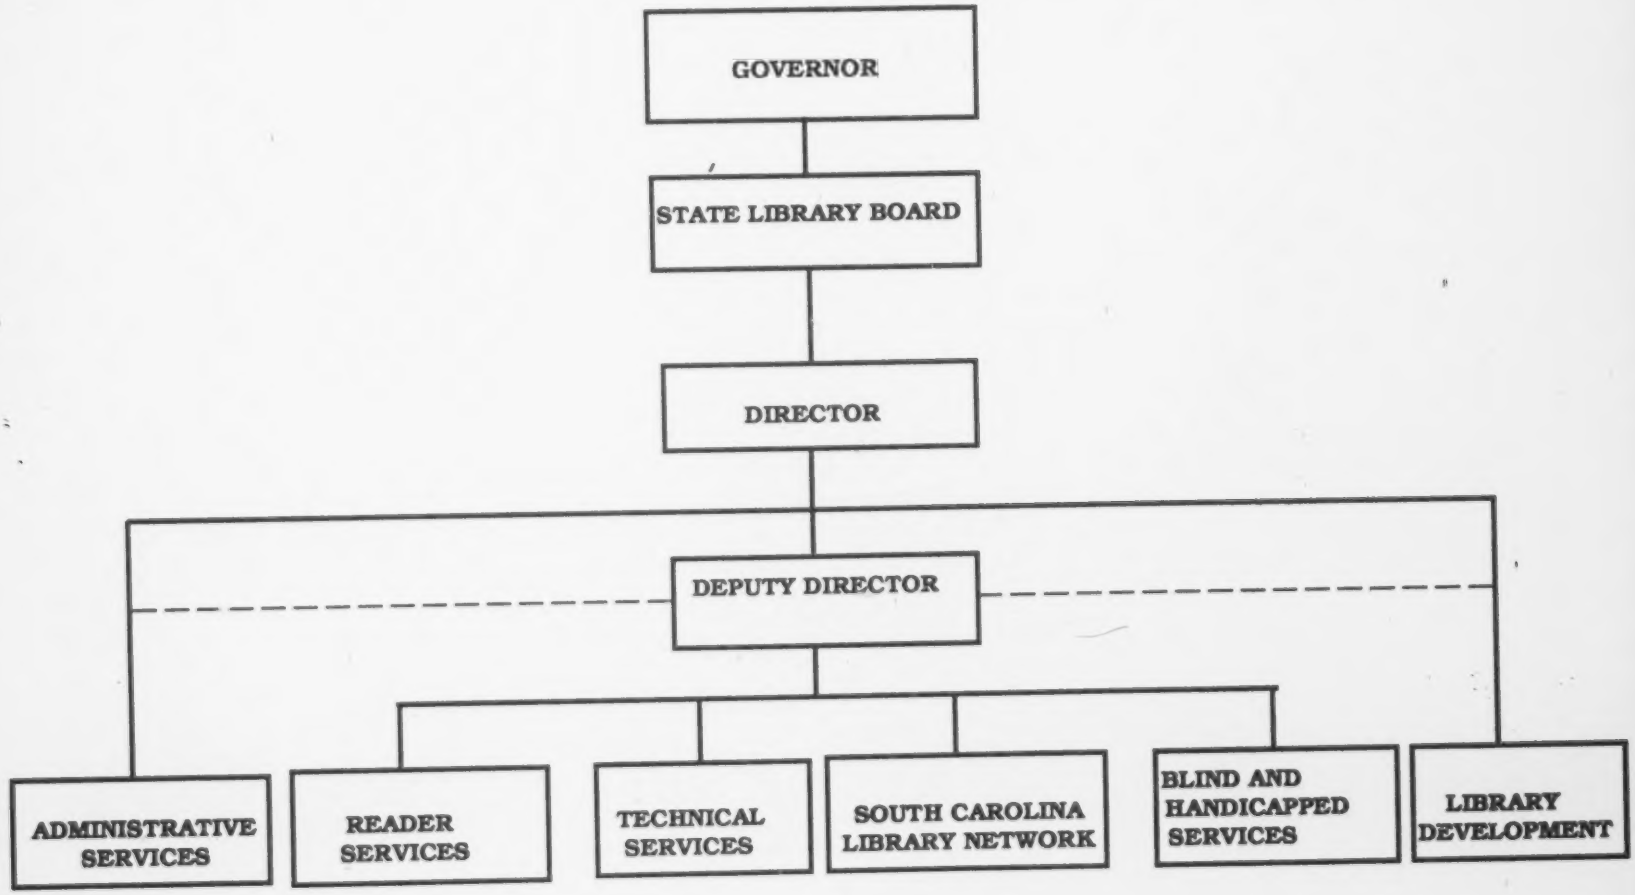
SOUTH CAROLINA STATE LIBRARY



SOUTH CAROLINA STATE LIBRARY

I. INTRODUCTION

Statutory authority for the South Carolina State Library is provided by Title 60, Chapter 1 of the Code of Laws of South Carolina. Originally authorized in 1929 and known as the State Library Board, the public library extension agency was first funded in 1943. It was redesignated the South Carolina State Library with a broad range of responsibilities by Act 464 of 1969. The legislation was recodified and new functions were authorized by Act 178 of 1985. Certain functions are also authorized and funded by the federal Library Services and Construction Act (P.L. 84-597 as amended).

The South Carolina State Library is an independent state agency governed by a library board of seven members named by the Governor, with one member from each Congressional District and one from the state at large. Members serve five-year terms and may be reappointed. The Director, who is responsible for the operation of the agency, is appointed by and is responsible to the State Library Board. The agency is organized under two divisions. The Deputy Director for Library Development is responsible for Administrative Services, Field Services, and Services for the Blind and Physically Handicapped. The Deputy Director for Library Services is responsible for Reader Services, including the South Carolina Library Network, and Technical Services.

II. MISSION STATEMENT

The mission of the South Carolina State Library is to serve the educational, informational, cultural and recreational needs of the people of South Carolina. It strives to improve library services throughout the state and to ensure that all citizens have access to library and information resources adequate to meet their individual needs.

To carry out its mission, the State Library studies the information needs of the people of the state; establishes policies and standards for library services; develops plans for the continued improvement of services; assists libraries in implementing services and programs to meet user needs; and provides specialized library services and materials not generally appropriate, economical, or available in other libraries. The State Library is an advocate for all types of libraries, working for state and federal legislation favorable to library development and for local, state, and federal funding for libraries.

The State Library is charged with administering and implementing the library programs authorized in the South Carolina Code of Laws (Title 60, Chapter 1) and in the federal Library Services and Construction Act (P.L. 84-597 as amended). To meet the needs of the people of the state and to carry out its responsibilities under state and federal law, the State Library has established the ten basic, continuing goals stated below. The goals are supplemented by specific objectives developed annually by each department of the library.

Goals

1. To improve the quality and effectiveness of library services in South Carolina.

2. To provide technical assistance and support services to the public and state institutional libraries of the state in order that they may better serve all of the residents of South Carolina.

3. To supplement the resources of other libraries in the state by maintaining appropriate collections of library materials and information sources and by providing research, interlibrary loan, and bibliographic services.

4. To provide research, loan, and reference services to meet the information needs of the General Assembly, state officers and agencies, and state government employees.

5. To stimulate cooperation and resource sharing among all types of libraries in order to provide the widest possible access to the library and information resources of the state.

6. To provide library services to visually and physically handicapped readers in the state and to assist libraries in developing outreach programs to serve other groups with special needs: the handicapped, the educationally deprived, the limited English-speaking, the culturally disadvantaged, and the elderly.

7. To strengthen the performance of library staff and trustees by means of continuing education, certification of public librarians, and support for professional library organizations.

8. To promote awareness of library services available to the public; to encourage the use of libraries by individuals, groups, and agencies; to represent library interests and needs to local, state, and national officials.

9 To work with libraries, educational agencies, and service organizations to promote reading and lifelong education for all South Carolinians and to cooperate in developing and carrying out programs to combat illiteracy in the state.

10. To support the right to read and freedom of information for all and to protect each library user's right to privacy.

Adopted: March 1978

August 1987

III. HISTORY

At the urging of citizens interested in quality county-wide library service, the General Assembly passed legislation in 1929 establishing the State Public Library Association and a State Library Board composed of five citizens. In the depths of the Great Depression, no funds were appropriated for the library extension agency, but grants from the South Carolina Library Association and the Rosenwald Foundation enabled the State Library Board to employ a field agent from 1929 to 1932 to assist communities interested in the development of public library service.

The first statewide library program was carried out under the Works Project Administration from 1935 to 1943. The WPA's major objective was to provide each county of the state some measure of area-wide public library service. The WPA library program helped establish library service in some areas and in others it enhanced existing libraries' operations. The WPA program made possible the establishment of bookmobile service in twenty-three counties formerly without rural library service. At its demise in 1943, the WPA had been successful in creating public library service in some form in all counties.

The State Library Board received its first appropriation of $3,000 in 1943 and inherited the assets of the WPA. Under the leadership of Nancy C. Blair (1943-1946) and Estellene P. Walker (1946-1979), the State Library Board initiated its program with emphasis on State Aid to public libraries and a goal of statewide public library service. County or regional libraries were established in all forty-six counties. The pattern of unified library systems, each legally established and governed by a single library board, made possible a good level of service by eliminating expensive duplication and overhead and by sharing resources and personnel.

When the federal Library Services Act was passed in 1956, the State Library Board, by executive order of the Governor, was charged with administering and implementing within the state the library programs authorized in the Act. Through this Act, the agency's functions were expanded to include service to the blind and physically handicapped, development of library service in state institutions, and interlibrary cooperation.

In 1969, as the result of action by the General Assembly, the State Library Board was redesignated as the South Carolina State Library and assumed responsibility for public library development, library service for state institutions, service for the blind and physically handicapped, and library service to state government and state government agencies. The library occupied its new building at 1500 Senate Street in November 1969. In 1985, an act was passed providing for the recodification of the State Library's legislation. The new legislation reauthorized all functions of the State Library and consolidated a variety of authorizations found in state and federal laws and regulations, executive orders and budget provisos.

The 1985 legislation also provided the legal basis for the South Carolina Library Network, a statewide computer-based network developed by the State Library to serve all South Carolinians. Between 1985 and 1987, the State

Library's bibliographic functions (cataloging, circulation, and interlibrary loan) were automated. A telecommunications network was then developed to give public, academic, and TEC libraries as well as agencies of state government on-line access to the State Library's catalog. The Department for the Blind and Physically Handicapped was automated in 1986. Automation has increased the productivity and efficiency of the State Library, while the network has enabled citizens throughout the state to have better access to library resources.

The State Library now has a threefold responsibility. As a library extension agency, it provides a staff of consultants to assist public and state institutional libraries in strengthening services, administers state and federal aid to libraries, and encourages cooperation and resource sharing among all types of libraries. As a reference and research library, it maintains comprehensive collections of books, documents, periodicals, films and other materials to supplement local library resources and provide information not available at the local level and to supply legislators, officials and state agency personnel with the information requisite for planning and decision-making. It answers questions, lends books and materials, researches issues, prepares bibliographies, collects state and federal documents, and provides information about legislation and programs of other states and the U.S. government. As the regional library for the blind and physically handicapped, the State Library serves all handicapped readers in the state. Established in 1973, the Department for the Blind and Physically Handicapped now serves more than 7,000 registered borrowers, providing them with recorded books on disk or cassette tape and equipment to read these materials and with large print materials for the partially sighted.

Public library development, the original mandate of the State Library, continues to be an essential function. Because county libraries were originally established by individual enabling acts passed by the General Assembly, the effects of the 1975 Home Rule Act upon local legislation necessitated passage of a statewide library act. In 1978 the Legislature amended the Home Rule Act to require counties to provide library systems. Act 564 (S.C. Code, 1979 Supp., Sec. 4-9-35 et seq.) stated:

> "The General Assembly finds that county public libraries make a substantial contribution to the education and recreation of the residents of the state and merit the continued interest and support of state and local government."

Through the years the state's financial support for public libraries has grown significantly. Beginning in 1943 with only $200 per county system, State Aid increased to $1,500 per county by 1952. Years of effort, climaxed by the 1965 Governor's Conference on Public Libraries, resulted in the change to a per capita basis for State Aid. From twenty cents per capita ($69,650) in 1966-67, State Aid increased in gradual steps to $1.00 per capita in 1984-85. Mid-year budget cuts reduced that amount in succeeding years until it was restored for 1988-89. $1.05 per capita has been appropriated for 1990-91. With local, state, and federal support, South Carolina now has county-wide library service for all forty-six counties.

IV. DIVISION OF LIBRARY DEVELOPMENT

A. ADMINISTRATIVE SERVICES

The General Administration of the State Library is carried out by a cabinet-style management team headed by the Library Director and consisting of the Deputy Directors and Department Heads. Within the policies and guidelines established by the State Library Board, this team plans development and extension of library service, prepares and administers the annual budget, administers state and federal aid for libraries, promotes the extension and improvement of library service, and recommends library legislation.

Support services for General Administration and for the entire agency are provided by the Administrative Services staff composed of nine individuals under the direction of the Business Manager. Support services are: (1) Information/Clerical Support, (2) Finance/Accounting/ Payroll, (3) Personnel, (4) Procurement, and (5) Facilities Management.

The Information/Clerical Support staff provides services to all departments through word processing, mail service, telephone service, reprographics, records management, and motor vehicle management. During FY 90 the word processing equipment was up-graded to support the South Carolina Library Network (SCLN) and other agency general operations. In addition to this the management of office files and records was reviewed and revised resulting in more easily accessible records. In May a new vehicle was leased from DMVM.

Finance/Accounting/Payroll handles all financial transactions and maintains records of state appropriations and federal funds under the Library Services and Construction Act. Seven Generally Accepted Accounting Principles (GAAP) closing packages were prepared and submitted prior to deadlines. Refinements were made to the Basic Agency Reporting System (BARS) throughout the year. Revisions were made to the non-capitalized fixed assets program in order to comply with new state regulations and the non-capitalized fixed assets for FY 89 were entered.

The State Library is an Affirmative Action/Equal Opportunity Employer operating under an Affirmative Action Plan approved by the South Carolina Human Affairs Commission. The agency administers its personnel program in compliance with State personnel regulation and requirements. In November, the Commission on Human Affairs notified the State Library that the agency ranks third among state agencies for progress toward Affirmative Action goals.

Procurement procedures were carefully reviewed during the year resulting in changes to make the process more efficient and to document compliance with the Consolidated Procurement Code.

During FY 90, building space needs were assessed, a program was developed to expand the State Library building and architectural services procured. The expansion will house all services in one building and allow space for housing

the expanding collection and services. Also, open office landscaping was used to divide the second floor area around the receptionist's station to form three new offices and a work area and later to re-arrange this area to accommodate the information/clerical support services. Other office spaces were shifted to accommodate staffing changes.

On January 25, 1988, the U.S. Congress authorized the President to call and conduct a second White House Conference on Library and Information Services to be held July 9-13, 1991 in Washington, D.C. with the theme "Library and Information Services for Literacy, Productivity, and Democracy". In November 1989 Governor Campbell appointed the South Carolina Pre-White House Conference on Library and Information Services Advisory Committee, and designated the State Library to serve as the coordinating agency for pre-Conference activities in South Carolina. The Advisory Committee is charged with the task of assisting the State Library in formulating a plan for Pre-White Conference activities.

The Library Interpretation Program is a special project under Administrative Services. The goal of this project is to interpret the objectives and functions of the statewide library program. It plans and carries out a statewide program of publicity and public relations designed to publicize South Carolina libraries and to make the general public aware of library services available within the state. Through this project, the State Library publishes a number of newsletters and reports. During the year the State Library worked with a public relations firm to implement a coordinated program of activities to promote libraries. Press conferences were held in several county libraries to focus attention on the local libraries information services and on the South Carolina Library Network and L+I+B+R+A+R+Y: The Formula for Lifelong Education materials developed in FY 89 as part of a highly successful campaign were utilized throughout the year.

B. FIELD SERVICES

The Field Services staff is charged with the development and improvement of public library service throughout the state and of library service in state institutions. Consultants provide assistance to library directors, boards of trustees, library staffs, library organizations, and state agencies and institutions.

Two special consultants work with all public and state institutional libraries in the areas of children's and adult/audiovisual services, respectively. Four general consultants (including the Field Services Director) serve as liaison between the State Library and the thirty-nine county and regional library systems which provide service to all of the state's forty-six counties. Each consultant works with specific county and regional libraries. The nature of the consultant's work depends upon the level of library service in the system and on the training, expertise, and experience of individual librarians. The state institutional consultant performs a similar function in the thirty-eight institutional libraries maintained by seven state departments and agencies.

In FY 90 the Field Staff - via regular on-site visits, telephone, and correspondence - assisted librarians, trustees, citizens, and administrators of state institutions in determining the library needs of their communities and ways to meet those needs. They provided workshops and training programs for library employees and public library trustees; explored solutions for local problems with library directors and boards; and supplied information on topics ranging from policies and standards of service to budget preparation to construction. The Field Staff is also responsible for administering State Aid to public libraries and for supervising grants-in-aid to public and state institutional libraries under the Library Services and Construction Act.

During fiscal 1989-1990, the Field Services librarians:

-- worked with the 39 public library systems serving the 46 counties of the state and with the 38 institutional libraries maintained by 7 departments and agencies;

-- made 462 field trips to public and institutional libraries;

-- attended 41 local library board meetings;

-- monitored library budgets approximately $25 million in local funds;

-- administered $3,270,673 in State Aid grants to public libraries;

-- supervised LSCA projects providing approximately $695,739 in grants-in-aid to public libraries and $40,529 in grants to state institutional libraries;

-- collected statistics and prepared and distributed statewide the Annual Statistical Summary;

-- represented the State Library at local, state, and national conferences, conventions, workshops, professional associations, building dedications, civic organizations, and other state and local meetings;

-- certified 34 professional and pre-professional public librarians;

-- provided recruiting, placement, and training services for public librarians and for librarians in the state institutions;

-- carried out additional duties either directly or through liaison activities.

Efficiency and Effectiveness: The effectiveness of the Field Services program can be measured by increases in public and institutional library services. Local support for public libraries increased by 12% in FY 90. Circulation of library materials increased by 1% in public libraries. The efficiency of the department can be measured in terms of the cost of consultant services provided by the State Library. Public Library consultant services were $0.18 per user, while costs for institutional library services were $1.09.

State Aid to Public Libraries. The program of State Aid to public libraries has been funded continuously since 1943. For FY 90, the General Assembly appropriated $1.05 per capita with a minimum of $15,000 per county for a total of $3,290,673 to the State Library for distribution to the public libraries. The regulations under which the funds are administered require that participating libraries be legally established, provide county-wide service, maintain levels of county funding, and meet certain standards of service. Qualifying libraries may use State Aid funds to supplement staff salaries, to purchase books and audio visual materials, to purchase or lease equipment and computer hardware and software, and to operate and maintain bookmobiles. These regulations ensure that State funds will not replace local funds and that the funds will be used to achieve a higher level of service. In 1990, all forty-six counties qualified for State Aid funds. Historically, State Aid requirements provided the incentive for establishment of library systems providing county-wide service. In recent years, matching and maintenance of effort requirements have encouraged county governments to increase local support for libraries.

Federal Aid to South Carolina Libraries. The Library Services and Construction Act, the source of federal aid for library services, includes six titles: Title I, Public Library Services; Title II, Public Library Construction; Title III, Interlibrary Cooperation and Resource Sharing; Title IV, Library Service to Indian Tribes; Title V, Foreign Language Materials Acquisition; and Title VI, Library Literacy Programs.

General purposes of the Library Services and Construction Act are to provide for improved public library services, for construction of public library buildings, for strengthening of state library agencies, and for promotion of interlibrary cooperation among all types of libraries. Emphasis is also placed on reaching the unserved and the inadequately served.

Title I - Public Library Services: This title supports improved services to public libraries, institutional libraries and special segments of the population. Grants-in-aid have been used to develop new programs of service, to improve the level of service in existing programs, and to strengthen material collections. Continuing education grants have contributed to the upgrading of library personnel. Outreach programs enable libraries to help the culturally disadvantaged, the functionally illiterate, the handicapped, and other groups which need special services. Grants are made for the automation of library services, the conversion of bibliographic records, and the enhancement of existing automated systems. Title I also provides grants to improve library services in state-supported institutions. In FY 90 the State Library was awarded $1,178,099 for Title I.

Title II - Public Library Construction: During FY 90 this title provided funds for construction projects which contributed to improved services in the participating county library systems. (See Public Library Construction.) In FY 90 the State Library was awarded $329,809 for Title II.

Title III - Interlibrary Cooperation and Resource Sharing: Programs funded under this title have resulted in improved communications, bibliographic access, interlibrary loan, consultant service, and study and planning. During FY 90,

Title III projects were designed to contribute to the long-range goals of enhancing the state bibliographic network. The expanding statewide database helps eliminate expensive duplication of materials and makes the state's library resources available to all South Carolinians. (See Network Development.) In FY 90 the State Library was awarded $277,098 for Title III.

Title IV - Library Service to Indian Tribes: South Carolina is not eligible to participate in this title since it has no recognized Indian tribes.

Title V - Foreign Language Materials Acquisition: This title was not funded in FY 90.

Title VI - Library Literacy Programs: This title is administered as a direct grant through the U.S. Department of Education. A project was funded under this title to contract with the South Carolina Literacy Association to develop and implement comprehensive in-service training for prison literacy program development, prison literacy program staff development, volunteer training, training in volunteer program management and logistical support. This project focuses on development of prison literacy council boards, training in the management of prison-based literacy programs, and on the training of volunteer tutors. In FY 90 the State Library was awarded $25,000 for Title VI.

Continuing Education. Recognizing the need for well-trained personnel, the State Library has consistently supported a program of continuing education for public and institutional library personnel at all levels and for public library trustees. Grants are awarded to attend conferences, seminars, and academic courses in librarianship. The State Library also plans and provides workshops in specific subject areas when it deems them necessary.

Nine professional librarians attended the workshop "Supervising People" offered by the Danial Management Center of the University of South Carolina. Two professionals attended the Advanced Management Program for Library Administrators given by Miami University of Ohio. Seven other professionals attended conferences on family literacy, service to children, new issues in librarianship, and management.

Members of the State Library staff attended workshops or seminars on human resource management, financial planning and budgeting, use of computer software and programs, and planning for the pre-White House Conference.

In 1989-90, 19 non-professional personnel representing 13 public library systems and the Department of Corrections attended the two-week academic course in librarianship, Reference and Information Services for Public Library Support Staff, which was funded by the State Library and offered by The University of South Carolina's College of Library and Information Science. Both directors and staff responded to this course offering, reflecting their interest in upgrading the skills of pre-professional and non-professional personnel. Five pre-professional and eight non-professional personnel representing ten library systems and the Department of Corrections attended academic courses in librarianship and the spring bookmobile workshop at North Central University in North Carolina. Course topics included organization and acquisition of library materials, young adult materials, computers in library science, service to children, non-book media, and bookmobile service.

On May 4, 1990, the State Library sponsored the adult services workshop, "What to Read" which focused on providing readers advisory services to library users in the area of adult fiction. Participants from both public and institutional libraries learned why adults read what they read, sources which assist in providing readers advisory service, current trends, and how displays and handouts may be used. Duncan Smith, Continuing Education Coordinator, North Carolina Central University, conducted the workshop which was attended by approximately 120 people.

Library Services to Children. Early and continued exposure to books and libraries is important in helping children learn to read and study. The South Carolina State Library is committed to helping public libraries provide the best possible service to children. The children's services consultant assists public libraries with planning and evaluation, program planning, staff training, and public relations. During 1989-90, the consultant made 66 field visits to public libraries in the state.

Thirteen federally funded projects were targeted for service to children and are extending services in eighteen counties in the state. The Allendale-Hampton- Jasper Regional Library received a grant to continue the outreach, expansion and promotion efforts begun the previous year and has had enthusiastic response to its service. Darlington and Laurens counties are focusing attention on preschoolers, particularly those in children care centers and Georgetown and Sumter have used grant funds to establish special collections of materials for parents and to conduct workshops for parents and caregivers. Two counties, Colleton and Anderson, have established collections of materials and services to children in new branch libraries; Charleston, Oconee, and Marlboro have emphasized service to upper elementary children by purchasing appropriate materials, conducting programs to bring them into the library, and promoting their services to children from varied cultural backgrounds. Beaufort and Kershaw counties identified needs of beginning readers and those reading below grade level and improved their collections of books and audio materials for use with these children. The four counties in the Aiken-Bamberg-Barnwell-Edgefield Regional system are using grant funds to take books to child care centers and to provide book-related programs during the summer at bookmobile stops, small branch libraries, and other sites.

The State Library cooperated with the Governor's Office in its "Caring for Tomorrow's Children" project, providing information on libraries and reading for the booklet distributed to pregnant women in the state. The consultant continues to promote the use of the training materials on early childhood development found through the Early Childhood Media Clearinghouse Catalog. A videocassette program "Read to Someone You Love" was prepared in collaboration with the University of South Carolina College of Library and Information Science, using grant funds from the South Carolina Humanities Council. This tape promotes the important function that reading aloud and sharing of books plays in the language development of young children and in their motivation to read, and will continue to be used around the state with parent groups, and all who care for and participate in the education of young children.

Two statewide workshops for staff who work with children were held on the topics of service to preschool children and communicating the message about children's services. Total attendance was 112 representing 40 county libraries and a military library.

South Carolina observed Young Readers Day on November 15 with a campaign sponsored by the State Library, the State Department of Education, and three statewide library and reading associations. Every public library and school district in the state used the theme "Ready, Set, Read" as the center of activities promoting reading in the family, the school, the library, and the community at large. Over 500,000 lapel stickers were distributed to children and adults, and posters, radio and TV announcements and newspaper stories focused attention on books and reading.

The 1989 Summer Reading Program, sponsored cooperatively by the State Library and public libraries, used the theme "Sail the Seven Seas With Captain Book: Discover Hidden Treasure at the Library". The program was used in 45 counties, with 34,203 children registered. Attendance at 2,007 group programs was 46,723. The graphic materials designed for the program received two awards -- an ADDY award from the Columbia Advertising Council and the American Library Association/Public Relations Section "Best of Show" award. The Florida State Library requested permission to use this theme for its 1990 summer reading program. Successful performances by Patchwork Players of Columbia and Chopstick Theater of Charleston brought live theater to 6,085 children and adults in 53 locations. the tour was partially funded by a grant from the South Carolina Arts Commission and was a component of the Summer Reading Program.

Library Services to Adults. During FY 90, the title of the Field Services Librarian for Adult Services was changed to Adult Services Consultant. The Adult Services Consultant assists library staff in planning, programming, and publicity. In addition, he is also responsible for planning and administering a statewide audiovisual program for public libraries, institutional libraries, and community organizations. He trains library staff in the use of films and equipment as a means of extending the information and recreational resources of public and institutional libraries. He selects materials for the audiovisual collection, and recommends new audiovisual equipment as needed.

During FY 90, he made 49 field trips to provide in-service training, technical assistance, and help in programming and promoting the use of audiovisual materials in public and institutional libraries. He conducted four regional 16mm films preview sessions during this fiscal year. Also, he held a readers advisory workshop in which over 120 librarians (both public and institutional) from all over the state participated. Two follow-up readers advisory workshops focusing on specific fiction genres are planned for FY 91.

The Adult Services Consultant edited four issues of News About the AV Scene. In the coming fiscal year, the title of this newsletter will be changed to News About Adult Services. It will continue to promote the use of audiovisual materials and to discuss innovative programming ideas, as well as focus on specific areas of adult services. An Adult Services Advisory

Committee was formed. It is comprised of five public librarians, one institutional librarian, and the Adult Services Consultant. The committee met three times during the fiscal year.

The Adult Services Consultant monitors the LSCA Projects for the Elderly (Project III-J). During FY 90, he monitored ten projects which ranged from home-delivery of materials to the elderly to the establishment of a library branch on Edisto Island with a very large elderly population.

Library Services for the Disadvantaged. Grants totalling $61,000 were awarded to six county and regional library systems during FY 90. Of this amount, $50,470 was allocated from FY 90 funds and $10,530 from FY 89 funds.

Variations in South Carolina's economy have lead to unemployment problems throughout the state. A project designed to address this problem used grant funds to create, publish, and distribute job search, educational, and career opportunity bibliographies which would identify resources for displaced workers. Part of the program included arranging "reference by appointment" service to individuals. A contact persons from the Governor's Office was instrumental in suggesting the outline of this project.

Grants to continue to provide service to children were implemented in two counties. The first targeted children who were deficient in reading skills and matched a child and a tutor who then listened to the child read. The second project provided materials and programming to eight neighborhood centers, eight headstart centers, seven childcare centers, and also provided service to the homebound.

Two programs targeted bookmobile service using different approaches. The first assisted in the purchase of a bookmobile which would then expand service to children, the elderly, and residents of rural areas. The second assisted in providing personnel for the bookmobile to increase the hours of service and attempt to meet the National Bookmobile Guidelines for staffing. The end result would be the expansion of service in rural areas.

Institutional Library Services. The Institutional Library Services Program of the South Carolina State Library assists in the development and improvement of libraries in state-supported institutions. The State Library provides monetary and professional assistance to these libraries. This program includes the services of consultants, workshops for administrators and librarians, scholarships and workshops for library personnel, reference and interlibrary loan, and grants-in-aid for the purchase of materials. This year's workshop covered Library Services and Construction Act Regulations and Financial Management.

In FY 90, thirty-eight institutions, maintained by seven state departments and agencies, provided library service to residents and participated in the LSCA grant project. Twenty-six of these offer full service under the direction of qualified library personnel. Included in this number are fifteen adult correctional institutions. In addition, four other adult correctional institutions are served from a central library division maintained by the

Department of Corrections via bookmobile and book van. Three youth center libraries in the Department of Corrections are served. Two schools and a reception and evaluation center in the Department of Youth Services, a special school for children from troubled or disadvantaged homes, and a special school for the deaf and blind all have libraries which receive institutional library services. In addition, five mental health facility libraries are served, as are the libraries in four residential centers for the mentally retarded. The State Library's Institutional Library Consultant made 46 field trips to work with state institutional librarians and administrators.

Four institutions too small to provide full-service library programs are served by a special project of the State Library. Two addictions centers, a vocational rehabilitation center for physically disabled persons, and a long-term care mental health facility annually receive collections of paper bound books especially selected for the use of their residents in recreation or therapy.

A major study of institutional libraries was begun with site visits made to eleven libraries and six central agency offices. The study includes interviews, a collection analysis instrument, and an observational checklist.

Four institutional libraries received literacy grants this year. The Department of Corrections continued its National Issues Forum program, including literacy Volunteers of America, ESOL and newspapers in literacy training.

The Department of Corrections began planning a new office complex and automation network for the Library Division's Technical Processing Center. Offices for literacy staff and a reference librarian are to be included. State Library staff offered consultation during the planning process.

Literacy Program. Grants totalling $59,235 were awarded to seventeen county and regional public library systems and institutional libraries. These grants were used to extend and improve library service to the illiterate and the functionally illiterate segments of the population. Grants were awarded for programs designed to prevent adult illiteracy as well as for traditional adult literacy programs.

With one of every four South Carolina adults twenty-five years of age and over identified as functionally illiterate, continued emphasis was placed on planning, development, and implementation of cooperative programs to combat the problems of illiteracy in the state. In all projects, cooperation and coordination with local agencies and organizations such as the local office of adult education, literacy councils, recreation departments, health agencies, social service agencies, etc., were stressed.

The majority of grants were made to plan, develop, and provide collections of materials to assist tutors with the teaching of reading and to meet the reading level and interest of adult students. Several grants were made to explore the use of new technology with literacy programs and to provide start-up salaries for library-based literacy offices.

The State Library in cooperation with the State Newspaper, the South Carolina Literacy Association, and the Department of Corrections conducted a session on newspapers as literacy resources.

Public Library Construction. Construction was completed on the following libraries funded with LSCA Title II (Federal) funds: 23,000 square foot Laurens County Library headquarters; 21,713 square foot Orangeburg County Library headquarters; 19,000 square foot Georgetown County Library headquaters; 7,130 square foot Waccamaw Branch Library (Georgetown County); 30,000 square foot Aiken County Library and Aiken-Bamberg-Barnwell-Edgefield Regional Library headquarters; and 15,000 square foot North Augusta Branch Library (Aiken County) of the Aiken-Bamberg-Barnwell-Edgefield Regional Library system. A total of $1,025,000 in Title II grants was made to these six projects. Local matching funds totaled $7,576.114. A Title II project under construction at the end of the year was the the Frederick W. Symmes Branch Library (Greenville County). A building project which did not involved Title II funding and for which construction was completed during the year was the Chapin Memorial Library in Myrtle Beach (Horry County).

During 1989-90 the State Library had approximately $1 million available in funding from the fiscal years 1986-1990. At the end of FY 90, all of these funds had been obligated. Libraries at year's end which were in the process of completing Title II applications were Beaufort County Library, Inman Branch Library (Spartanburg County), and Charleston County Library.

Assistance was given this year with site selection, floor plans, and written building programs for the following projects: West Columbia/Cayce Branch Library (Lexington County); Estill Branch and Hardeeville Branch (Allendale-Hampton-Jasper Regional Library); Horry County Library; Hartsville Branch (Darlington County); and the Kershaw County Library. These projects may or may not receive federal funding.

Among the many benefits which the new larger facilities will provide for the South Carolinians whom they serve are:

-- Seating for adults and children to read, study, listen to records or cassettes, use microfilm readers.

-- Space for the growing collections of materials needed to fulfill the borrowing needs of library systems.

-- Large, attractive children's areas.

-- Reference areas with encyclopedias, dictionaries, and other resources and equipment easily accessible to researchers, students, and library staff.

-- Meeting rooms for children's programs, library films, lectures, exhibits, community groups.

C. LIBRARY SERVICES TO THE BLIND AND PHYSICALLY HANDICAPPED

The State Library provides service for the blind and physically handicapped in cooperation with the Library of Congress, National Library Service for the Blind and Physically Handicapped (NLS). Any South Carolinian who is unable to read conventional print due to a visual or physical handicap is eligible for these services. Qualifying conditions include, but are not limited to, blindness, double vision, cataracts, glaucoma, stroke, paralysis, palsy, multiple sclerosis, and learning disabilities. The Library of Congress provides books and magazines in recorded disc and cassette formats, the required playback equipment, and books in braille. The State Library provides staff, facilities, operating costs, and a supplemental collection of books in large print. It also contracts with the North Carolina State Library for braille service. Reading materials are available in all subject areas for all age groups. No postage is required to either mail materials to readers or to return them to the library. An estimated 43,705 South Carolinians are potentially eligible. Currently 7,427 are receiving service.

This was the first full year with the services of a Volunteer Coordinator. More than $29,000 in donated services were received. Patron services were enhanced directly as additional volunteers were recruited, trained, and supervised to perform tasks in areas of patron service for which no staff time was available as well as providing additional time for staff to deal personally with needs of patrons. The 57 volunteers, 19 of whom were new recruits, donated a total of 2,896 hours to DBPH. Individuals accounted for 1,298 hours and Telephone Pioneers gave 1,598 hours. Specific projects such as writing and adding annotations, deleting titles for which there are no local holdings, performing all processes necessary to weed the collection, duplicating tapes for book repair and magazine distribution, and regular book inspections were executed. The Telephone Pioneers continued to repair playback machines. DBPH nominated this chapter for the Voluntary Action Center which they won for 1990 in acknowledgement of their 30 years of volunteer service. A new catalog of large print books is being planned as a result of the editing of the annotations by two volunteers. The objective of the recording program is to enlist, train and schedule recording teams consisting of a narrator, monitor, and reviewer in order to produce books on tape which meet National Library Service quality standards. The Volunteer Coordinator received training at NLS to prepare for this recording program.

A high degree of patron satisfaction is demonstrated verbally and by letters of appreciation in addition to approximately $3,000 in memorial and appreciation contributions. Since services are primarily via mail, a newsletter in large print and on cassette tape and an In-WATS telephone line with an after-hours recording device serve as principal means of communication. Patron satisfaction with the service provided can be attributed to the communication in 9,785 calls on the In-WATS line using 685 hours of staff time as well as the 1,927 long distance calls to patrons consuming 130 hours of staff time. Most of the outgoing calls were to new patrons to determine their needs and reading preferences initially. Local calls to and from patrons cannot be reliably documented. Walk-in visitors average 125 per month.

The automated circulation system incurred two major achievements. The installation of Version 5.2 of the VMS operating system was in addition to several minor software improvements as well as the installation of the major new version 3.1A for which DBPH had been the Beta test site for DRALBPH. Even though software was improved some statistical adjustments needed to be made. Using these adjustments we are able to determine that more than 8,270 were provided service in FY 1990 with at least 1,143 new readers being enrolled. Improvements were made in subject coding which enhanced service to patrons.

A total of 280,556 books and magazines were circulated this year, an increase of 34,582 books over FY 89. These totals do not reflect 63,000 magazines sent to readers directly by producers upon notification by the State Library. An interface of the patron file with the national subscriber listings was accomplished to provide faster and more accurate delivery of direct mail subscriptions to our patrons.

The collection of materials numbered 190,987 after the acquisition of 26,682 new books and the assignment of books to the "lost" category after repeated overdue notices. These books will be returned to available inventory as they are received from patrons. The collection of master tapes continues to increase and is utilized by volunteers to repair books. Volunteer narrators using the custom designed recording booth and equipment have supplemented the new titles supplied by NLS in addition to the acquisition of volunteer recorded titles from other libraries.

Efficiency and effectiveness: The effectiveness of the Services for the Blind and Physically Handicapped program can be measured by increase in number of items loaned (14%), and the number of volunteer hours donated (20%). During FY 90 an average of over one promotional activity each week resulted in over 1,000 people signing up for service. The efficiency of the department can be measured in terms of the costs per item loan and the costs to maintain audio equipment. These costs were $0.17 and $2.13 in FY 90.

Public relations activities continued to increase consisting of exhibits at conferences, presentations before appropriate consumer groups, appearances on media talk shows, and participation in and use of public service announcements and publications from NLS. Easels are still being distributed and another 15,000 brochures were needed. Public libraries are encouraged to promote this service by identifying potential patrons and generally assisting with publicity efforts. Residents are also encouraged to utilize appropriate services of their public libraries. Five county libraries - Anderson, Charleston, Florence, Greenville, and Spartanburg - have small browsing collections for use by local residents.

V. DIVISION OF LIBRARY SERVICES

A. READER SERVICES

Efficiency and effectiveness: The Reader Services Department provides reference and research services to state government and statewide reference and interlibrary loan services to supplement local library resources. The effectiveness of the Reader Services Department can be measured by increases in

informational services to state government and in interlibrary services. In FY 90 state government information services increased 20%, while interlibrary loan services increased 7%. The efficiency of the department can be measured in costs to answer state government inquiries and costs for interlibrary loan, which were $4.36 and $3.67 respectively in FY 90.

Reference and Information Services to State Government. The State Library serves as a major source of information for state government agencies. Reference librarians research the library's collection of materials and specialized information sources to answer state employees' information requests. These requests vary in complexity depending on the type of information needed by state government personnel to carry out their job assignments. Questions answered by librarians range from simple: What is the address of the U.S. Immigration Office in Atlanta? to complicated: What factors are involved in Head Start students successfully making a transition to public schools? Reference librarians also provide assistance and guidance to state government personnel using the library's facilities and collections.

The State Library improved accessibility to its computerized library catalog (LION) by providing state employees and others with an all-purpose password. Library users equipped with a computer terminal and modem can now dial into the library's computer and search the collection of the State Library by using the single password of LION. Improvements to the catalog software program were also introduced in this year which now allow library clientele to search the catalog by keyword. This new keyword program greatly enhances the library patron's ability to successfully identify needed library materials.

To extend its research capabilities beyond the limitations of its own collection, the State Library provides Data Search, a service that locates information contained in computerized databases. The Library currently has access to over 650 information databases offered by such vendors as DIALOG Information Services, BRS Information Technologies, and VU/TEXT. These databases vary in format, including bibliographic citations, full-text articles and reports, directory listings, and numeric tabulations. The scope of content materials also ranges widely from newspaper articles, encyclopedias, federal government data, and corporate profiles to scientific and technical reports. Often, the information contained in computerized databases has no counterpart in print, demanding that reference librarians possess the necessary skills, knowledge, and training to effectively provide accurate and up-to-date information to state government. During 1989-90 the library conducted a total of 347 database searches for state government and public libraries. Since the State Library does not receive a specific appropriation to support this information service, actual search costs often must be paid by the state agency requesting the information.

The library also subscribes to indexes in CD-ROM (compact disk, read-only memory) format. CD-ROM technology allows thousands of pieces of information to be stored on a small disk which can then be searched through a microcomputer and compact disk drive. The library currently subscribes to Magazine Index Plus, Newspaper Index and ERIC (Educational Resources Information Center) in compact disk. In order to publicize and inform state employees of the new ERIC product, reference librarians conducted three separate training sessions for 70

South Carolina Department of Education employees and other individuals with education-related interests. Four special bibliographies on educational topics were prepared for distribution during these orientations.

During the year the Reader Services Department continued its commitment to informing state government personnel and others of the services that are available to them through the library. 33 formal presentations were made by reference librarians, reaching a total of 430 persons. State agencies reached by these efforts included the Arts Commission, the Department of Corrections, the Department of Education, Highways and Public Transportation, the Housing Authority, the Department of Labor, the Department of Mental Retardation, Retirement Systems, Santee-Cooper, and the Workers Compensation Commission.

Specialized bibliographies and news articles were prepared by reference staff for distribution and publication in organizational newsletters. A list of informational materials on problem solving was included in a packet given to 100 attendees at the South Carolina Deputy Directors Conference; a bibliography on management and evaluation of training departments was distributed to 60 persons attending the South Carolina Trainers Conference. Articles informing state government of the research services available to them appeared in Communique, the newsletter of the Health and Human Services Finance Commission (circulation - 500), the Tax Commission Times (circulation - 250), and Directions, the newsletter of the Association of Agency Directors (circulation - 50). Other lists were compiled advertising sources of information on such topics as rural economic development, wellness, and creativity. New Resources, a selective listing of new books, journal articles and government publications of interest to government employees, was mailed on a monthly basis to 920 recipients including legislators, state government personnel, and other libraries. The library receives many requests for titles contained in this popular newsletter.

In addition to these publication efforts, the State Library contacted 46 new or newly-promoted state employees inviting them to visit the library and apply for a library card. Valuable informal contacts were made by one reference librarian serving as a member of professional organizations which cross state agency boundaries, such as the South Carolina Trainers Consortiuum, the South Carolina Public Information Officers Organization, and the South Carolina Drug Store Advisory Committee.

These promotional efforts have had favorable results, as seen in the steady increase of use of the library by state government. In 1989-90, 26,267 individuals visited the library. By June 30, 1990, 3,740 state employees had registered for library cards, a 13% increase over the previous year. Members of state government borrowed 45,862 library items, a 20% increase, and received research assistance in answering 12,014 reference questions, a 5% increase over the preceding year.

Legislative Reference Service: The State Library provides a special information service for members of the South Carolina General Assembly, legislative committee researchers, and legislative interns. Research requests vary from information needed for speech preparation to extensive background information on legislative issues. To assist in researching these needs, the State

Library subscribes to two major services which report on significant governmental actions occurring in other states - From the State Capitols and State Policy Reports. The research staff also draws upon all the library's collections as well as resources available through interlibrary loan in order to answer legislative requests. During January 1990 an orientation program was held for graduate student interns assigned to legislative committees to acquaint them with the resources and services of the State Library. During the year, the library answered 301 research requests from the legislature and provided 5,356 pages of photocopy free of charge in response to legislative requests.

Interlibrary Loan Service. The State Library provides reference and interlibrary loan service to supplement the local resources of South Carolina libraries and acts as the central component of the South Carolina Library Network. Since no single library can meet all of the diverse research needs of its patrons, the collections of the State Library have been developed as a source upon which local libraries can draw to make information and materials available to South Carolinians in their own communities.

Most of the interlibrary loan requests received by the State Library were submitted through the South Carolina Library Network, a computer-based statewide library network and communication system designed to give all types of libraries improved access to the collections and services of the State Library. Participating libraries can immediately identify specific holdings of the library and determine their availability for loan. Titles requested online were processed and mailed by the staff within 24 hours in most instances. Through the electronic mail component of the Network, libraries placed requests for information, photocopy, books, government documents, and the location of materials in other libraries. Additional requests were received through the mail, through the interlibrary loan subsystem of the Online Computer Library Center (OCLC), by telephone, or by telefacsimile (fax). Books and other materials are generally delivered by mail, but photocopy that is needed immediately can be transmitted by fax. During the year the Interlibrary Loan Service received 266 requests for fax delivery and transmitted 1,607 pages.

During 1989-90, the Interlibrary Loan Service processed 34,311 requests, which included 6,754 information requests and 27,557 title requests. These figures represent a 27% increase in information requests over the last year, and a 4% increase in title requests. In response to these requests, the library provided 33,963 books and articles (up 7%), including 29,372 pages of photocopy (up 9%). The majority of requests continued to be placed by South Carolina public libraries, but requests from academic and special libraries within the state increased by 13% (7,541 requests). Requests from libraries outside the state also went up significantly this year. The library supplied 857 items in response to 1,320 requests, an increase of 19% in both figures. Service to selected South Carolina school libraries continued during 1989-90. Eight schools were provided with 1,057 books and articles, including 747 pages of photocopy.

To supplement its own collection, the library routinely checks the library collections at the University of South Carolina in order to identify and borrow requested library materials which are not available at the State Library. The Interlibrary Loan Service staff also attempt to locate requested items in other

libraries, using the OCLC database and various holdings lists. Locations for 1,853 books and periodicals were provided to all types of libraries in the state, an increase of 45% over last year.

In addition to lending materials to other libraries, the Interlibrary Loan Service borrows for state agency employees those materials which are not available in the State Library's collections. Most of these materials are borrowed from the University of South Carolina, but the OCLC interlibrary loan subsystem was used to borrow 455 items from other libraries around the country.

Audiovisual Service. Use of the audiovisual collection climbed 20% over the previous year. In FY 90, 6,030 audiovisual titles were loaned to South Carolina libraries and state government personnel. During the year, the library made a concerted effort to encourage library systems to borrow audiovisual materials for organizations in their communities. As of the end of the fiscal year, most county libraries had signed contracts with the State Library agreeing to borrow and loan audiovisual materials for their local organizations.

The State Library's audiovisual collection is comprised of 16mm motion picture films, videocassettes (1/2" VHS format), filmstrips, slide/tapes, audio cassettes, and puppets, with 16mm films making up the bulk of the collection. A centralized collection of audiovisual materials prevents costly duplication of expensive resources and makes available a much larger selection of materials than any local library could provide alone. During the year, the library continued to develop its collection of audiovisual materials on management topics by purchasing additional titles to add to the collection. Annotated listings of the materials were prepared and updated throughout the year for distribution to the public. The management collection has proven to be very popular with state government personnel. Many of the videotapes are being used in staff development and training sessions conducted by individual state agencies for their staff. The State Library also maintains an instructional audiovisual collection dealing with literacy. Materials dealing with child care and early childhood education make up the Early Childhood Media Collection which is available for use by individuals working with children.

Library Collections. To meet the information demands of both state government and the citizens of South Carolina, the State Library continually attempts to identify and purchase non-fiction publications on a wide range of topics, such as history, art, applied technology, political science, and the social sciences. Specific titles which are requested by libraries and by state employees are monitored and often serve as recommendations for purchase. By acquiring, housing, and offering these information materials in one central location, the library attempts to eliminate the need for state agencies to maintain expensive, individual collections. The library's collection also serves to supplement the collections of local public and other libraries which often lack sufficient funds to purchase extensive research materials.

The library contains a number of specialized collections which are described below. One of these is the ERIC (Educational Resources Information Center) collection containing over 300,000 research publications relating to all aspects of education. The ERIC collection is used extensively by the S.C. Department of Education, teachers, school administrators, students, and other researchers.

The Grants Research Collection represents another specialized group of materials which is designed to inform fund-raisers and grant seekers about the funding patterns, policies, and key personnel of major philanthropic foundations and corporate philanthropic programs across the country. The collection is frequently used by individuals in raising funds to support nonprofit organizations in the state. In its role as a regional collection of the Foundation Center for South Carolina, the State Library receives tax returns filed with the Internal Revenue Service by South Carolina philanthropic foundations. These returns contain often difficult-to-locate information on trustees, grants, and geographic focus of the foundations. To provide information on South Carolina foundations, the State Library compiles and publishes the South Carolina Foundation Directory and produces an in-house database containing updated information on South Carolina foundations.

The library maintains a collection of federal military specifications and standards. This microfilm collection contains descriptions of products and services which are being put out on contract by the U.S. Department of Defense. These specifications are used by South Carolina business firms in preparing their bids to obtain federal contracts. The collection is provided through a cooperative agreement with the South Carolina Small Business Development Center. By providing South Carolina business firms and citizens with a central location for rapid delivery of needed military specifications, the State Library and the Small Business Development Center are cooperating to foster business development in South Carolina. During 1989-90, the library supplied 567 military specifications, representing a total of 12,924 pages of photocopy. These figures represent a 1/3 increase in the number specifications requested and 20% increase in the number of photocopies supplied over the previous year. These figures also reflect a tremendous growth in use of the collection from its initial year in 1987-88 when a total of 64 specifications were requested. In order to inform businesses and citizens of the availability of the collection, the State Library publishes a brochure describing the collection and the services which the State Library offers in supplying military specifications. The library also published an article in the South Carolina Business Journal, an official publication of the South Carolina Chamber of Commerce to inform the South Carolina business community about this collection.

The library makes a concentrated effort to acquire publications dealing with South Carolina subjects. These materials may vary from an annual directory of county government officials to a historical analysis of plantation life in South Carolina. Multiple copies of South Carolina titles are usually purchased to ensure that one copy remains in the library, with additional copies available for circulation.

South Carolina Library Network. The South Carolina Library Network, coordinated by the South Carolina State Library, supports the efforts of local libraries to meet the information needs of all South Carolinians. Libraries participating in the South Carolina Library Network have access to LION (Library Information Online) automated database of the South Carolina State Library, to an electronic bulletin board service reporting on current library activity in the state, and to an electronic mail component which facilitates the transmission of interlibrary loan requests. Libraries dial into the State

Library computer to request both materials and information not available locally. 33,963 items were loaned to libraries placing online or electronic mail requests in 1989-90, an increase of 7.7% over the previous year.

A total of 22 new libraries gained access to the Network in 1989-90, including two academic, seven special, and 13 school libraries. The 136 Network users by type of library are:

Public Libraries	48
Academic Libraries	30
Technical College Libraries	16
Institutional Libraries	3
Special Libraries	23
School Libraries	16

Although the Public School Library Media Center Demonstration Project, designed to determine the feasibility of school media center participation in the Network, was completed in 1988-89, the decision was made to continue to offer Network access to additional schools. The ten schools added to the six of the original project are in Barnwell, Beaufort, Calhoun, Greenville, Lexington, Orangeburg, and York Counties. Selection was based on local interest, the availability of appropriate hardware, and location. Training and installation for all but three of the schools was completed by June 1990. The State Library continues to monitor the impact of school library requests.

The decision was made to allow state agency personnel access to the LION database through the Network using a generic user name and password. The practice of assigning agency specific passwords was discontinued, and a brochure outlining the new procedures was distributed to state agencies.

The State Library provides an on-going program of training and support for Network users. The Coordinator of Network Services conducted 26 Network training sessions and made 36 field visits to participating libraries. She discussed and/or demonstrated the use of the Network at 13 meetings, including the annual membership meeting of the Southeastern Library Network in Atlanta in May 1990. Two Reference Basics workshops, attended by 30 library staff members from nine library systems, were held in May as part of an on-going project to upgrade public service in South Carolina public libraries.

Other Network activities reflect the commitment of the South Carolina State Library to resource sharing within the state for the benefit of all citizens. A Telefacsimile Directory for South Carolina Libraries was published by the State Library and distributed during May 1990. The Directory listed the more than 80 libraries in the state capable of the rapid transmission of information through "fax" technology. Ten of these libraries had acquired their equipment through a previous LSCA Title III grant administered by the State Library. To help libraries identify possible sources of information, the State Library published the 1989 edition of the South Carolina Union List of Periodicals. It was distributed in August 1989, to all public, state institutional, academic, technical college, and many special libraries in the state. This list of the 15,000 periodicals owned by 12 libraries in the

Columbia and Charleston areas was produced by the University of South Carolina School of Medicine under contract to the State Library as an expansion of a previous edition. Plans for the 1990 edition call for the inclusion of the holdings of at least 20 additional libraries statewide.

The South Carolina Library Database (SCLD) was formed in early 1989 to facilitate the sharing of materials by 87 libraries in the state. 47 South Carolina libraries are full members of the Southeastern Library Network (SOLINET), and use the OCLC bibliography of 21 million items for cataloging and interlibrary loan. Funding was provided by the State Library to give 40 additional libraries access to the OCLC database as selective users for the purpose of interlibrary loan. Of the 40 libraries, eight were those of the University of South Carolina Regional Campuses, and were trained in the use of OCLC by the USC Processing Center. The remaining libraries, academic and public, participated in 13 training sessions at the State Library from July through October 1989. The selective user libraries could borrow materials through OCLC initially only from other South Carolina libraries. In January 1990, SOLINET announced the formation of SoLINE, the SOLINET Information Network. Through SoLINE, SCLD libraries can now locate and request materials from hundreds of libraries in ten southeastern states.

Network services were enhanced by the addition of a new central processing unit and disk drive to the State Library computer, which is housed and maintained by the Computer Services Division of the University of South Carolina under a contractual agreement. With a faster response time and additional storage capacity, the State Library can begin to expand Network activity.

Improved telecommunications for the Network resulted from a change to a new long-distance carrier. Libraries received instructions for editing Network software to incorporate a different dialing procedure, or were supplied with new computer disks. The transfer resolved access problems which had proved insoluable with the previous system.

Government Documents.

State Documents Depository System

With passage of the State Documents Depository Act in 1982, the South Carolina State Library assumed responsibility for the collection, processing, and distribution to cooperating libraries of publications of state government. The Act requires that all state agencies, branches, and institutions send 15 copies of their publications to the State Library which catalogs and retains 3 copies and sends the other 12 copies to 10 in-state and 2 out-of-state libraries.

During 1989-90 1,073 state publications were distributed to affiliate depository libraries. Of these, 269 were new titles and 660 were additions to existing titles. 124 titles distributed were considered too general or ephemeral to be cataloged.

Affiliate state documents depository libraries in South Carolina are Clemson University, College of Charleston, Francis Marion College, Greenville County Library, Lander College, South Carolina State College, Spartanburg County Library, USC-Beaufort, USC-Coastal, and Winthrop College. The Library of Congress and the Center for Research Libraries in Chicago also receive one copy of South Carolina state publications.

A meeting of representatives from all state documents depository libraries was held on May 23. During the meeting, librarians received information on searching for state publications via the South Carolina Library Network. Librarians were instructed in searching for documents by classification number and also viewed a demonstration of keyword searching. A proposed design for a statewide logo to be used to identify the South Carolina State Documents Depository program was approved by those attending. Librarians also viewed a demonstration of FEDCAT, a database containing information on U.S. government publications which will be loaded into the library's computer and will be available for searching via the South Carolina Library Network.

During 1989-90, the Documents Librarian also conducted three separate instructional sessions on South Carolina legislative research methods and sources of information for a total of 44 graduate students from the University of South Carolina.

Federal Documents Program

The South Carolina State Library is one of eighteen selective federal documents depository libraries in South Carolina, receiving 49% of available items. The University of South Carolina and Clemson University libraries serve as joint regional depository libraries to which selective depositories may discard old or seldom-used publications. During 1989-90, the library at the University of South Carolina, Aiken campus, became the eighteenth depository library in South Carolina. The State Library's federal documents collection is strong in the fields of demography, education, labor, statutory law, economics, and government administration. Federal documents provide valuable and often unique information for all levels of library users.

During the past year, the library underwent an official inspection by the U.S. Superintendent of Documents. The favorable inspection report particularly commended the State Library in the areas of providing capable reference assistance to individuals using federal publications as well as the physical processing of the documents. Based on recommendations received in the evaluation report, the library has initiated a complete review and evaluation of publications being selected for its collection. This review is currently underway with some items being dropped from the collection and eventual weeding of the collection being planned for the future.

The library's Documents Librarian attended several professional meetings in conjunction with management of federal documents. These meetings included attendance at the Depository Library Council meeting in Washington, D.C., a workshop on preparing for a federal documents inspection, and the South Carolina State Data Center Conference.

B. TECHNICAL SERVICES

The Technical Services Department coordinates the selection, ordering and processing of all materials for the State Library collections, including audio-visual materials and state and federal documents. The book stock is a one-copy, non-fiction collection, except for South Carolina titles. It includes periodicals and newspapers in both paper and microfilm, and services such as ERIC in microfiche. There are separate collections of both federal and state documents. Principal additions during the year are as follows:

Item	Additions	Total
Books	9,247	214,714
State Documents In Print	2,211	38,897
State Documents Non-Book	32	96
Federal Documents in print	6,289	106,407
Federal Documents in microfiche	8,528	114,467
Microfilm reels	756	17,425
Microfiche	18,123	393,370
Audiovisuals	454	3,464

The number of federal documents now surpasses the holdings of the regular collection. Combined with the state documents, this makes the State Library collection almost unique within the state. Consequently, we can offer services not available elsewhere.

Being a member of Southeastern Library Network, a computerized network of libraries affiliated with the national network, OCLC, Inc., has made it possible to catalog new acquisitions quickly and efficiently. Adding the Library's holdings to the national network database has resulted in greater use through interlibrary loan. Having a machine-readable database has made it possible for us to automate this library to better serve both state agencies and the county libraries. Enhancements to this online system give broader searching capabilities and easier retrieval of information.

Brief records for the audiovisual collection were added to the database in FY 87, enabling that department to automate its bookings to the county libraries. The materials booking collection was augmented by 327 titles which included videotapes for use in state government workshops and training. There were also many sound recordings on tape added to the regular collection for use by the individual. All these materials are getting full description in the online catalog since the abbreviated records were found to be inadequate. We began a program of fully cataloging those earlier items and completed 92 this fiscal year.

Until April of 1990, the State Library cooperated with the Library of Congress in the National Coordinated Cataloging Operations (NACO), an on-line authority file of personal, corporate, or geographic names, of uniform titles, and of meetings. NACO ensures uniformity in cataloging so that on-line access will be possible across the country. The process was so highly intensive and

time consuming for the professional cataloging staff that we were unable to contribute the required number of items to the Library of Congress and keep abreast of other duties. Thus we were in mutual agreement to withdraw from NACO.

Efficiency and effectiveness: The effectiveness of the Technical Services Department can be measured by the number of new books added to the State Library's materials collection. In FY 90 9,247 new books were added.

VI. STATE LIBRARY AWARDS

Each year the South Carolina State Library honors individuals, organizations, or libraries which have made outstanding contributions to library service in South Carolina. During the 1989 annual conference of the South Carolina Library Association three awards were presented. Valeria H. Staley, a member of the Orangeburg County Library Board, in recognition for her dedication to service to South Carolina libraries and Margaret Haynes, Laurens County children's services librarian, in recognition of 25 years of devoted service to children of South Carolina received the Distinguished Service Award. A Meritorious Service Award was presented to the Children's Service Department of the Richland County Public Library in recognition of excellent children's programs and commitment to quality children's services at all levels.

VII. VOLUNTEER SERVICES

Volunteers contributing time and services benefit the State Library and particularly the Department for the Blind and Physically Handicapped. Members of boards and advisory councils represent user groups and aid in the development of policies and services. Individuals and groups perform tasks such as narration of recorded material, repairing Talking Book machines and headphones, preparation of newsletters and other mass mailings, and other tasks for which there is not sufficient staff time.

When the Department for the Blind and Physically Handicapped moved into larger quarters, space became available for volunteers to work with new equipment, such as a sound booth and recorder. In FY 90, the first full year with the services of a Volunteer Coordinator, the volunteer program continued to expand.

During 1989-90 some 103 individuals contributed 3,215 hours of service as shown below:

State Library

Library Board	7 members	105 hours
LSCA Advisory Council	14 members	64 hours
WHCLIS Advisory Council	25 members	150 hours

Department for the Blind and Physically Handicapped

Advisory Council	16 members	23 hours
Telephone Pioneers	10 members	1,598 hours
Other Volunteers	31 members	1,275 hours
TOTAL DBPH	57 members	2,896 hours

Based on formulas from the Governor's Office, the service value of these DBPH volunteers is 29,315.50 with the total value of volunteers to the State Library being more than $33,462.
